

MEDIA RELEASE

TIANQI LITHIUM HYDROXIDE PROCESSING PLANT PROJECT (TLA LHPP PROJECT) POWERING ALONG

Monday, 4 September 2017

The first major heavy rotating equipment arrives on site.

The calciner cooler shell, supplied by Metso, was delivered to site this week in one piece. The shell was fabricated locally at Steelstruct's facility in Henderson over a six week period.

It was a major logistical exercise and successfully completed by the project's logistics company, NMT International (Australia) Pty Ltd with specialised heavy transport equipment supplied by Doolan's Heavy Haulage.
